Why Crewdentials?

You're in control
Use the tools you need, how you need them. Replace spreadsheets or work alongside existing systems

Expert knowledge
Maritime compliance knowledge built in and available to all. Self training for your team

Efficient & Accurate
Reduce onboarding & certificate management to seconds. Data consistently profiled

Verify
Digital tools to verify certificates instantly or via automated email, and warn of potential fraud risks

Collaborate
Your team, crew and manager access the same data, meaning it is always up to date

Accessibility
Progressive web app (PWA), accessible from any device, optimised for low bandwidth

Security
Your account & documents are encrypted and secure. Data privacy by design

Productivity tools
Produce documents at the touch of a button. Acts as crew portal - share documents and policies

Platform Solution

Workspace
Onboarding & compliance

Independent solutions
Data flows 2 ways

Crew Profile
Digital wallet kept throughout career

FAQs

How much does it cost?

The cost is based on the size of the vessel:

| Size	Implementation fee*	Annual fee*
under 40 metres	**YACHTIES OF** the World.	£1,500
40- 59m		£2,200
60 - 79m	Crewdentials will waive implementation fees for introductions via Yachties of the World	£3,200
80m+		£4,500

How many crew or vessels can I manage?

As part of the Crewdentials Yacht Package you can manage the vessel and its tenders and chase boats. If the vessel is part of a fleet (including support vessels) you will need a fleet package. Please contact us for more information

Can you integrate with other systems?

We are working on this! However crew onboarding and qualification management is a discrete task that can be easily managed in a separate system

FAQs

How many users can we have?

As many as you like! Add your captain, purser, chief officer and family office representatives
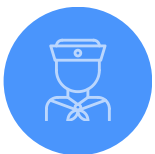

How does the Crew Member access the Workflow?

The Workflow is accessed through the dedicated URL. Simply share the url with the Crew Member in the way to suit you including by email or Whatsapp

What are the benefits to inviting Crew?

You choose whether to invite Crew to fill in a Workflow (ie a customisable form, like a portal). There are many benefits to both you and the Crew of doing this, including efficiency and accuracy, but it is not mandatory

Do our Crew have to create their own Crew Profile?

No. Your Crew need to authenticate with Crewdentials to ensure the Workflow is completed by who you were expecting. However, our 2 solutions are entirely independent - meaning that even without a Crew Profile, they can complete your Workflow and access it at any time. In this way it acts like a portal

How do Crew update their information?

If the Crew Member:
- has their own Crew Profile they simply make the relevant updates in their account and share with you
- doesn't have their own Crew Profile, then they simply access the URL for the Workflow and update their data and documents

You'll be notified!

What is included in the implementation fee?

We will work with you set up your Workflows, Crew Scheduler, IMO Crew List and Groups. If you would like assistance with uploading crew documents we would be delighted to provide a proposal
